Message

In our collective desire to be of greater service to our various stakeholders in the higher education firmament of Central Luzon, we have updated our data bank of information to remain responsive, relevant and responsible to the hyper-changing needs of the times. This concrete action is directed to speed up development and progress supportive of the cause and ideals of higher education in the age of Industrial Revolution 4.0.

Now more than ever, is the opportune time for all of us to work closely together in re-strengthening our ranks as well as in re-positioning our niches to be able to meet the challenges of the globalizing contextures and complexities of higher education in the twenty-first century.

With all these vital pieces of information to guide us by, it is our fervent hope that our aspiration of continuously elevating the indices of growth and development along the area of higher education in the Region will become a reality.
