FIRST WORLD FAMILY PEACE LEADERSHIP CONVENTION
"The Essence of One Family Under God: A Platform of World Peace for a New Civilization"
JULY 19-21, 2024, THE MANILA HOTEL, PHILIPPINES

RATIONALE:

A. The Clarion Call to Establish One Family Under God

From the Global Peace Festivals beginning in the year 2007, Dr. Hyun Jin "Preston" Moon, the founder of the Global Peace Foundation, and the Family Peace Association, has been announcing the coming of this new age of One Family Under God, where humanity of diverse culture can coexist in lasting peace. He encouraged leaders and professionals from all walks of life to lead the process, by ushering, guiding, and setting exemplars for young people to follow and take ownership of this great and bright future.

Dr. Moon has also encouraged professionals to share their expertise and wisdom in transforming our societies toward establishing this new age of one family under God. This convention is designed to further study the essence of one family under God and its impact on our societies. Basic questions such as, what are the principles and values within one family under God that will help humanity to have lasting peace? What is a God-centered individual, family, society, nation, and world? What is Blessing and Family Ideals? The importance of the virtues of Loyalty and Filial Piety to the young people. What are the Four Great Realms of Heart that each person must go through? There will also be an emphasis on Gender Roles, Three Great Kingships, and the Blessing Movement.

B. A Strife for a God-centered Civilization

Our history has recorded different civilizations, but none of them has led us to lasting peace. We have arrived at an opportune time for the new civilization of one family under God to rise. It is time for humanity to recognize that the solution to human conflicts and global imbalance, is when we fulfill the original ideals and purpose of God for his creation. And that is to recognize that we are all one family under our common parent, God. The Divine Being, the creator of life and universe for a clear purpose. He is also behind humanity's enlightenment to aspire for one family under God.

As indicated above, we are heading toward a new age and another wave in history. But the question is, shall we let this new age be tarnished with our old ways and habits so that it will just become another civilization of human conflict and survival? Or will we strive to lead it to a new civilization of lasting peace? A new civilization, which is different from the old ones, is full of conflicts and chaos. A God-centered civilization anchored on the Principles and Leadership of True Love and Service, Truth, Righteousness, and Goodness.

This convention is a strife of concerned and righteous professionals from the different fields of our societies, aiming to lead, support, and propagate the creation of this new civilization by rendering their exemplary professional services training and ushering the youth to become owners of this new civilization. In their own best, they will guide the creation of this peaceful, harmonious, prosperous, and progressive golden civilization of God and humanity, ending all the depressing impact of the selfish civilization that humanity has experienced.

C. Familial Outreach, Familial Interactions, a Showcase of Best Family Cultures from Other Countries

The convention provides a platform for families to reach out to other families in need through conducting community services. Group discussions during the conference are organized in a round table format facilitating familial discussions. Booths showcasing the best family cultures from selected countries will be part of the Family Festival

D. Why the First World Family Peace Leadership Convention?

This convention will move to other countries in Asia-Pacific and the world. It will advance to its second, third, and so forth. It will be a self-generating and self-sustaining platform.
